Resolution: Services to HIV Infected Individuals

- WHEREAS: There is a need for comprehensive HIV/AIDS service delivery systems throughout the state of Arizona; and
- WHEREAS: the need encompasses housing and human services, medical care both primary and specialty, psycho-social services and Home Health services; and
- WHEREAS: service organizations serving HIV infected individuals are chronically overloaded; and
- WHEREAS: long term care facilities have not responded to the needs of persons with AIDS.

NOW THEREFORE BE IT RESOLVED:  
The Arizona Public Health Association supports and endorses efforts to:

1. provide financial incentives for the coordination and delivery of community services;
2. integrate the care of HIV infected individuals into the mainstream of the health care delivery system whenever possible;
3. provide specialty based health services to HIV infected individuals responsive to the unique clinical manifestation of the disease;
4. maintain and expand the rights of a HIV infected individuals to choose and plan their own health care.

Approved by the AZPHA membership at the Fall Meeting, September, 1989.
