

RESOLUTION

Section Involvement Within the Association

Whereas the Arizona Public Health Association consists of sections of varying interests (administrative support, environmental health, health education, medical care, nursing and special services); and
Whereas issues develop within the sections that may or may not be of general public knowledge; and
Whereas the Arizona Public Health Association potentially provides a useful source for disseminating information and developing support; therefore the Executive Committee of AzPHA
Encourages that each section submit to the Executive Committee of AzPHA issues of importance to its membership; and
Further encourages each section to submit a minimum of one resolution a year, no later than one month prior to the Associations annual meeting; and
Recommends that each section inform AzPHA as to which ways the Association could best serve the section on said issue.
