

Sept. 11, 1960

RESOLUTION

Proposition 106 and Public Health Services

The Arizona Public Health Association,

Recognizing that Proposition 106 (Heusler Amendment), if passed, will seriously cause a decrease in funds available for public health care and services; and

Recognizing that the effect of such a movement has already resulted in a service reduction of the quality and availability of health care and other essential services, especially to low-income and working people (Proposition 13, State of California); and

Recognizing that Proposition 106 is a Proposition 13 type tax revolt; therefore

Recommends that AzPHA develop constructive strategies that cope with the problems of a fiscal crises and tax reform as they relate to the financing of health services; and

Further resolve to publically go on record that the Arizona Public Health Association does not support the Passage of this bill.

APPROVED: _____

REJECTED: _____
